

Assisted and supported living

Sahara Care
Pathways to Positive Outcomes

The support our services provide is designed to give each service user as much control as possible over decision-making, daily routines, other activities and the level of assistance delivered by our trained and experienced care staff.

An important part of living life the way our service users wish is having individual, private space and service users are encouraged to personalise their rooms as they choose.

As well as being a place with a welcoming, family atmosphere, each of our services is also a community where they are able to develop lasting friendships, to socialise and understand the importance of respect and tolerance for others' privacy, lifestyle choices and behaviours.

All our services are conveniently located for local educational, leisure, shopping and other facilities, enabling service users to become involved in community life in the way they choose and feel comfortable with. Good transport links make it easy to access a wider range of activities and attractions in surrounding areas and London.

We understand the importance to our service users of maintaining relationships outside their home and their locations make it easy for family and friends to visit and for service users to go to see people important to them. All our services are also next to, or close to, local parks, giving service users attractive views and access to green spaces for leisure activities or exercise.
